Portfolio

LeetCode

Summary

Backend-focused Computer Science undergraduate with hands-on experience developing RESTful applications using Java, Spring Boot, Spring Security, JPA/Hibernate, and MySQL. Built backend systems with JWT-based authentication, role-based access control, and Dockerized deployment. Solved 200+ data structures and algorithms problems in Java.

Experience

Personal Backend Development Experience

- Designed and developed RESTful APIs using Java and Spring Boot following MVC architecture.
- Implemented secure authentication and authorization using Spring Security and BCrypt.
- Integrated MySQL using JPA/Hibernate and deployed Dockerized applications on cloud platforms.

Projects

Java • Spring Boot • Spring Security • JPA • MySQL • JWT • Docker • Gemini API • Frontend Technologies

AI Quiz Generator

- Built an AI-powered quiz platform with 19 REST API endpoints that generates quizzes on user defined topics with 5, 10, 15, or 20 questions by using the Gemini API.
- Implemented JWT-based authentication, USER/ADMIN role-based access control(RBAC), and used DTOs and Bean Validation for request processing.
- Designed a 4-table MySQL database and with features including randomized quizzes, score evaluation, leaderboard tracking, and deployed the Dockerized application on Render and tested APIs with Postman.

E-Commerce Application

- Developed an e-commerce backend with 26 REST API endpoints for authentication, product management, cart operations, order processing, and image uploads.
- Implemented JWT-based authentication, USER/ADMIN role-based access control, DTO-based request handling, and Bean Validation using Spring Security.
- Designed a 6-table MySQL relational database, tested APIs with Postman, and deployed the Dockerized application on Render with Clever Cloud as the external database.

Skills

Java
HibernateORM
CSS

SpringBoot
MySQL
JavaScript(Basic)

Spring Data JPA
REST APIs
Docker

Spring Security
HTML

Education

Bachelor of Technology

SriVenkateswara College of Engineering, Oct 2023 – 2027

Computer Science (Cyber Security)

Tirupati, Andhra Pradesh

CGPA : 8.75/10

Certificates

TCS iON National Qualifier Test – IT

May 2026

- Achieved 79.2% in Hands-On Programming (Java), demonstrating programming and problem-solving proficiency.

HackerRank Problem Solving (Intermediate)

June 2026

- Verified assessment of fundamental algorithms, data structures, and problem-solving skills.
